6. The electric power plant for the airfield is located in Focsani. A trunk line runs northwest from Focsani, west of the highway. An underground cable branches off from this line to the field. The field is equipped with searchlights and the runways and taxiway have sunken lights. The highest points of the airfield terrain and roofs of buildings are equipped with neon lights.
7. Buildings are the airfield are as follows:
  - a. Hangars: The hangars are marked with Roman numerals, I through V. Numbers I, II, and III are 50 by 80 meters, built of concrete with a slate roof and sheet iron doors. They were rebuilt in 1952. Numbers IV and V are 85 by 60 meters, with a flat roof and of concrete construction.
  - b. Administration building, 30 by 20 meters, with a flat roof. On the north side there is a control tower, 15 meters high, surrounded by a balcony.
  - c. Clubhouse, 20 by 40 meters, which contains a canteen and a messhall.
  - d. Barracks. Two fortress-type structures with a 3-story barracks building inside.
  - e. Two 2-story buildings, 40 by 15 meters, which were built in 1953, surrounded by barbed wire.
8. The following is the legend for the attached sketch of Focsani airfield:
  1. Concrete runways.
  2. Openings at the north ends of the runways.
  3. Parking sites.
  4. Taxi strip.
  5. Old hangars.
  6. Administration building.
  7. New hangars; assembly hangars.
  8. Club building; canteen.
  9. Two warehouses.
  10. Group of barracks.
  11. Barracks, formerly a fortress.
  12. Barracks, formerly a fortress.
  13. Officers quarters.
  14. Gun emplacements, earthworks, medium defense.
